

Weed Man®

WELCOME TO WEED MAN!

You've Made the Best Choice for Your Lawn!

Thank you for choosing Weed Man Lawn Care! With the right partner by your side, a healthy, lush, weed-free lawn is within your reach.

At Weed Man, we believe in open and honest communication with our customers. To ensure you get the most out of our top-quality products and service, please read the enclosed information.

Our Lawn Care Services:

FERTILIZATION

Our exclusive, golf course quality, slow-release fertilizer lasts 6-8 weeks in the soil and ensures proper nutrition and root development.

DISEASE CONTROL

Our lawn care team is trained to detect and treat potentially harmful turf diseases before they take over your lawn.

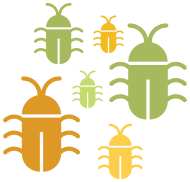

WEED CONTROL

The latest products and technology, calibrated for maximum effectiveness against broadleaf weeds.

CORE AERATION

Aeration re-oxygenates your turf, allowing more efficient delivery of water, nutrients, and fertilizer to your lawn's root zone.

INSECT CONTROL

Experienced lawn care technicians can identify pests and stop devastating infestations.

OVERSEEDING

Add insect and disease resistant seed to your soil for a fuller, healthier, more resilient lawn.

How You Can Help:

You can help keep your lawn in tip top shape by paying close attention to your cultural care practices. More specifically, proper mowing and watering will help you achieve better, quicker, more long-lasting results.

MOWING TIPS	WATERING TIPS
<ul style="list-style-type: none">✓ Never cut more than 1/3 of a blade of grass in one mowing.✓ Mow more often (every 3-4 days) during active growing periods.✓ Alter your mowing patterns each time you cut to keep your grass growing strong and straight.✓ Keep your mower blade sharp for a clean cut.✓ Grasscycle your blades back into your lawn for nutritional value.	<ul style="list-style-type: none">✓ Provide your lawn with a minimum of 1-1 ½ inches of water weekly.✓ Avoid light, frequent watering. A heavier, more thorough watering helps turf roots to grow more deeply.✓ Avoid watering too frequently, as too much water can lead to disease problems.✓ Water in the early morning for best results✓ If your lawn shows symptoms of drought, water it immediately regardless of the time of day.

Our Promise:

We would love to tell you that when you are a Weed Man customer, you will never have a lawn issue again, but that's not reality. You will. There will always be pressure from hard-to-control weeds, disease, pests and heat stress, as your lawn is a living, breathing, ever changing part of nature with specific needs unique to your property.

With that being said, you can rest assured knowing that your investment in your yard is backed by Weed Man's **100% customer satisfaction guarantee**. When we promise you a lush, healthy lawn, we won't stop until it is just right. If you notice any problems or re-growth between services, contact us! We will happily return to your property for service calls and/or re-applications at no extra charge to you.

Contact Us!

At Weed Man, we welcome any and all questions that may arise throughout each and every stage of the lawn care process. Our locally owned and operated office is backed by more than 45 years of lawn care experience and is always staffed with the most knowledgeable technicians, customer service agents, and managers in the industry. We'd love to hear from you!
